

# CAPACITY DEVELOPMENT PLAN

## PAW Number/Fiscal Year:

3845614 (2019-2020)

## Purpose:

To identify capacity development needs and describe project activities required to address these needs in a timely manner. The program uses the following definition for capacity development:

“...those programs and initiatives that support communities and organizations to obtain, strengthen and maintain their capabilities to set and achieve their own development objectives and progress over time.”

## Due Date:

The due date will be communicated through call letter.

## Note:

It is not necessary for applicants to follow a complicated or far-reaching exercise, such as comprehensive community planning, to create a capacity development plan. A plan is simply any document which identifies areas for improvement in a community's government, proposes a number of concrete tasks which could be undertaken to address them, and assigns a timetable to those tasks. Those tasks that are related to improving core governance in a community could be eligible for funding under the Professional and Institutional Development program.
